### **STATEMENT OF INTENT**

Grand Engineering Engineering Ltd.

Grand Engineering Ltd. has decided to seek certification to the CE Marking regulations for Structural Steelwork Contractors as set out under the European Construction Product Regulation 2013 and is currently undertaking a project under the Manufacturing Advisory Scheme as follows.

- Consultants; Hatton Parkinson Associates, have been appointed and commenced the project. The Consultant responsible for the project is Peter Dorling under the direction of the senior partner Jim Hatton.
- The Draft "Factory Production Control" (FPC) system has now been completed.
- Supporting systems and procedures have been designed and are being implemented.
- Internal Auditors have been appointed and are being trained.
- External Assessors have been chosen;- BM Trada Ltd. are a UKAS Accredited "Notified Body". A date for document review is provisionally booked for early November 2014.

Final internal Audits and Management Reviews will be undertaken and full third – party assessment is planned for early October 2014. The company will be fully certified under the CE Marking regulations by the end of November 2014.
